Additional Security Measures at Melbourne Airport

Sunday, 30 July 2017

The Australian Government has introduced additional aviation security measures for both international and domestic terminals at Australia's major airports, aimed at addressing heightened security concerns in the aviation sector.

All persons in and around the Airport are asked to be an active member of team security and remain alert and vigilant towards suspicious activity, suspicious items and out of the normal behaviours.

If you do see something of concern or have something reported to you by a member of the public, we ask that you note the detail of the concern and if applicable, the contact details (name and phone number) of the person reporting it. Then report the information to 03 9297 1601 or if life threatening, call 000.

The travelling public can expect to experience an increased level of security scrutiny at the airport but they should not be concerned about these precautionary measures.

As the measures place an additional burden on the screening system, it may take a little longer than usual to get through the process.

Melbourne Airport recommends the following messaging to the travelling public to ensure minimal disruption:

1. Passengers should arrive at terminals at least two hours before flights to allow ample time for screening; and
2. Limit the amount of carry-on and checked baggage they travel with as this will help to ensure security screening is efficient.

There are no changes to what can and cannot be carried on-board the aircraft.

Emergency Contact details:

Airport Emergency: 9297 1601

AFP: 131 237

National Security Hotline: 1800 123 400
