To: All Travel Agents,

Branded Fares realignment in Apollo

Effective February 7, 2018, Air Canada will realign the tier numbers used to price and store Air Canada's branded fare options in the Apollo GDS. New branded fares tier ID's are identified as follows.

Brand Name	Brand Code	Example	*New* Apollo BF Tier ID	Previous Apollo BF Tier ID
Tango	-TG	H0ZLC4TG	2	1
Flex	-FL	H0ZLC4FL	3	2
"Reserved"	-	-	4	-
Latitude	-LT	Y0CLT	5	3
Premium Economy Lowest	-PL	E0C4PL	6	4
Premium Economy Flexible	-PF	O0C4PF	7	5
Business Lowest	-EL	Z3CEL	8	6
Business Flexible	-EF	J3CEF	9	7

In markets where Tango and Flex fares share the same booking classes, agents must now use the BF3 modifier to price and store Flex fares, e.g. \$B*:BF3, \$BB*:BF3, T:\$B*:BF3.

Agents may also use any of the branded fares tier ID's to shop for other fare types, e.g. \$BB*:BF6 to shop for Premium Economy Lowest.

Kindly disseminate the information to your staff concerned.

Thank you for your continuous support.
