# TG Preferred Seats

ISS No. BJS1906

Effect from 27JUL19, TG provide “Preferred Seats” in all international flight. Preferred seats in economy class are located at the cabin’s front rows and in the emergency exit rows. These seats offer extra legroom for additional comfort. Once tickets have been issued, passengers can now opt for a preferred seat prior to departure for a fee, which is based on distance flown and flight duration.

As part of the same facility, Business class passengers also have the option of selecting Royal First Class seats for a fee on flights where a two cabin configuration is in operation. This applies to a few regional routes serviced with Boeing 747 aircraft, which have a separate Royal First cabin but are not sold as such.

For an even smoother experience, purchase your preferred seats online, or via THAI local reservations office, at least 48 hours before flight departure. Additionally, preferred seats can be purchased at the airport check-in counter.
