

Choose the space that you need for your flight. Distancing Seats are now an option in our flights.

As we face the 'New Normal' with the same heart, Philippine Airlines is adding health and safety measures for your passengers' peace of mind when they travel. Part of these enhancements is an Onboard Distancing Seat option that they can choose in all of our flights starting July 1.

Passengers may choose the space that they need for their flight:

Experience ultimate comfort and exclusivity.

Passengers who book in PAL's Business Class will experience world-class luxury in the skies. They can indulge in plush seats, an exclusive cabin, and even extra privacy through cabin dividers in our flight.

Get Distancing Seats.

Passengers may purchase an Economy Flex or a Premium Economy fare so they can sit in the Distancing Section within their fare type or class of service. Aside from having a middle or an aisle seat left empty beside them, they can also enjoy faster boarding and deplaning as these Distancing Seats are located within rows at the front of the aircraft.

Choose to be seated together.

If passengers are traveling with family, friends, or other passengers needing special assistance, they may choose to be seated in rows where passengers can stay close together. Distancing may be observed, but only subject to space availability.

The Distancing Seat option is included if the passenger/s book in our Premium Economy Class (N / W) or in an Economy Flex (Y / S / L / M / H) fare in any of PAL's channels.

Booking a ticket with Philippine Airlines is an assurance that passengers enjoy peace of mind and the highest standards of safety and security. Most PAL aircraft have roomier seat configuration, offering wider seats, more legroom and more forward space between seat rows, compared to budget carriers & even some full-service airlines. Our non-stop flights to/from the Philippines ensure that passengers have a hassle-free journey straight to their destination. Lastly, we would like to request everyone to do their share as responsible travelers so we can #FlySafe together.

We look forward to bringing people safely to their next travel destination. **Mabuhay!**
