ACCEPTED VACCINATION AND TEST CERTIFICATES

Finnish border and health authorities check required travel documents and certificates when you arrive in Finland or may require airlines to do so at your departure airport. Please prepare to show your travel documents and corona related certificates at any point of your journey. All customers arriving to Finland are guided through the coronavirus certificate check point. This concerns you even if you have a connecting flight within Finland. Please be prepared to present your boarding pass from the flight that you arrived in Finland with, and the coronavirus certificates that you may have. You can also use the FINENTRY service or the EU digital covid certificate for presenting the certificates. It is good to know that there may be queues at times at the certificate check points.
