International to Domestic (ITD) Connection Process for AC8 Hong Kong to Vancouver

Effective March 2, 2022, Air Canada's flight AC8 from Hong Kong to Vancouver has been added to the list of International to Domestic (ITD) eligible flights.

International to Domestic (ITD) is a streamlined connection process that allows eligible customers to connect in Canada onto a Canadian domestic flight without having to retrieve their baggage at the transit airport.

Flight AC16 from Hong Kong to Toronto is already an ITD eligible flight.

Customers must meet all the following eligibility requirements for ITD:

1. Traveling on AC8 from Hong Kong to Vancouver, or on AC16 from Hong Kong to Toronto with an onward domestic connection within Canada on Air Canada operated flights.
2. Have a piece of checked baggage that is tagged to the final destination
3. Are not travelling with a PETC (Pet in Cabin), AVIH (Pets in Cargo Hold) or WEAP (Weapon).*

Note : *Service animals are not considered PETC or AVIH and customers travelling with service animals are ITD eligible when all other requirements are met.
