Due to the closure of Russian airspace, we are making changes to our flights to Asian destinations and Russia.

We will continue our flights to Tokyo starting 09 March, Shanghai starting 10 March and Seoul starting 12 March avoiding the Russian airspace. We also continue flights to Bangkok, Phuket, Delhi and Singapore using a longer route going around Russia.

We have cancelled all flights to Russia until 28 May 2022. Also, Seoul flights AY41/42 on 9/10 March and 11/12 March are cancelled. In addition, flights to Osaka and Hongkong will be cancelled until 30 April 2022.

Safety is always our first priority. We are following the situation closely and will update any new information on this page. We

are very sorry for any inconvenience the changes may cause  
you.
