SUBJ: Reminder of health declaration before arrival at Hong Kong

Recently, we found that there are a lot of passengers did not complete a health declaration form of the Department of Health before check-in. In order to ensure passengers can check-in smoothly, please remind your customers with the followings.

- Inbound persons arriving from overseas places are required to conduct a Rapid Antigen Test (RAT) with a negative result within 24 hours prior to the scheduled time of departure of the flight to Hong Kong.
- These persons are advised to complete the online Health Declaration Form after they have obtained the negative RAT result.
- After submitting the declaration and upon confirmation of boarding requirements being met, the system will generate a green Health Declaration QR code. Please save the QR code (which can be a downloadable version of the QR code, a screen shot or a printout).
- Please present the green Health Declaration QR code at check-in for verification by airlines for boarding.

For more details, please refer to Hong Kong government website as below.
