### Our Co-Location at Terminal 8 at John F. Kennedy International Airport 我们的合作地点在肯尼迪国际机场的8号航站楼

The co-location supports the Port Authority's plan to transform JFK into a leading global airport. The move brings British Airways closer to its partner airlines as Terminal 8 becomes home for eight oneworld® Alliance carriers. Iberia plans to move into Terminal 8 on Dec. 1, and Japan Airlines expects to move its operations to Terminal 8 in May 2023.

### An exceptionally strong Thanksgiving operation

感恩节期间航班完成运营率非常高

- **Completion factor:** We ran our best Thanksgiving period completion factor since 2017 and our best-ever controllable completion factor for the holiday period. That means that of our nearly 50,000 flights, we had only 28 cancels due to controllable factors. In fact, mainline had four consecutive zero-cancel days, which is the first time since the merger. And our regional operation saw one zero-cancel day.
- **On-time departures:** We ranked second among our major competitors. In fact, our Nov. 25 D-0 performance was our best daily performance since March 2, 2022.

**JAL Takes Further Steps to Reduce Single-use Plastic Onboard****日本航空采取进一步措施减少机上使用一次性塑料产品**

Expanding on its commitment to sustainability, JAL is taking further steps to replace single-use plastics onboard its aircraft to meet its goal of eliminating all new petroleum-derived single-use plastics in its cabin and lounges by fiscal year 2025. Initiatives being implemented include the replacement of plastic lids used on paper cups and drink stirrers on international and domestic flights with alternatives made from paper. Paper tray mats having been introduced on International Economy Class from August 2022, and containers and lids for main dishes will be replaced and used from January 2023. Collectively, together with other initiatives, a reduction of over 500 tons of new single-use plastic per year is expected.
