3.1.1 Except as provided in Para.3.2, 3.3 and 3.4, these Conditions apply to all international carriage by air of passengers and baggage, performed by Xiamen Airlines for reward.

3.1.2 These Conditions also apply to gratuitous and discounted fare carriage except to the extent that Xiamen Airlines has provided otherwise in gratuitous carriage, tariffs, contracts, passes and/or tickets. In the event of any inconsistency, the special provisions of gratuitous carriage, tariffs, contracts, passes and/or tickets shall prevail over these Conditions.

3.1.3 The domestic air carriage under special management between the Chinese Mainland and Hong Kong Special Administrative Region, Macao Special Administrative Region and Taiwan region shall comply with these Conditions, except as provided otherwise in government regulations, relevant contracts, passes or tickets.

3.2 Charters

If carriage is performed pursuant to a charter agreement, these Conditions apply only to the extent they are incorporated by reference by the terms of the charter agreement and the charter ticket.

3.3 Code shares

General Conditions of Xiamen Airlines also apply to the code-share flights operated by other carriers. However, the operating carrier of each code-share flight has terms and conditions of carriage with respect to the operations of its own flights, which may differ from those set forth in General Conditions of Xiamen Airlines. Those terms and conditions of the operating carrier will be considered as a part of General Conditions of Xiamen Airlines and apply to code share services provided by Xiamen Airlines on a flight operated by the operating carrier, which supersede General Conditions of Xiamen Airlines that would be otherwise applicable. Terms and conditions that may differ between Xiamen Airlines and the operating carrier of code-share flights include, but are not limited to:

- a) Check-in deadline;

- b) Refusal and limitation of carriage;
- c) Baggage carriage rules, including but not limited to free baggage allowance and excess baggage fees;
- d) Compensation for denied boarding and flight delays;
- e) Non-smoking flights.

3.4 Overriding law

To the extent that any provision contained or referred to herein is contrary to the mandatory and prohibitory provisions contained in any applicable Convention, national (or regional) laws and administrative regulations, such provision shall not apply. The invalidity of any provision shall not affect the validity of any other provision of these Conditions.

4 Schedules, cancellation and changes of flights

4.1 Schedules

4.1.1 Xiamen Airlines undertakes to use its best efforts to carry the passenger and his baggage with reasonable dispatch and to adhere to published schedules in effect on the date of travel.

4.1.2 Except in the case of its acts or omissions done with intent to cause damage or recklessly and with knowledge that damage would probably result, Xiamen Airlines shall not be liable for errors or omissions in timetables or other published schedules, or for representations made by employees, agents or representatives of Xiamen Airlines as to the dates or times of departure or arrival or as to the operation of any flight, which are for reference only.

4.1.3 The flight times or aircraft types shown in timetables may change between the date of publication and the date of commencement of travel. Xiamen Airlines does not guarantee them to passengers and they do not form part of passengers' contract of carriage with Xiamen Airlines.

4.1.4 Before Xiamen Airlines accepts passengers' booking, Xiamen Airlines will notify passengers of scheduled flight time in effect as of the time, and it will be shown on passengers' paper or electronic tickets. It is possible Xiamen Airlines may need to change the scheduled flight time subsequent to selling of tickets. If passengers provide Xiamen Airlines with contact information, Xiamen Airlines will endeavor to notify passengers of any such changes. After the passenger has purchased the ticket, if the scheduled departure time of Xiamen Airlines flight is delayed more than 15 minutes or advanced, the provisions of involuntary changes or involuntary refunds in these Conditions shall apply. When handling involuntary changes of tickets, if the passenger, after confirming the alternate flight, requests a change or a refund for his ticket due to his own reasons, the relevant provisions of voluntary changes or voluntary refunds shall apply.

4.2 Cancellation and changes of flights

4.2.1 Under any of the following circumstances, Xiamen Airlines may, without prior notice, cancel, terminate, change, postpone, or delay any flight:

- a) in order to comply with any applicable national (or regional) laws, rules, government regulations and orders; or
- b) in order to assure safe operation of a flight; or
- c) as a result of circumstances beyond control or prediction.

4.2.2 If due to circumstances listed in Para.4.2.1, flight departure delay or cancellation occurs, and thus Xiamen Airlines is unable to provide previously confirmed space (including class of service), fails to stop at a passenger's stopover or destination point, or causes a passenger to miss a connecting flight on which the passenger holds a reservation, Xiamen Airlines will consider the reasonable needs of the passenger and handle the case in accordance with the provisions of involuntary changes or involuntary refunds in these Conditions.

4.2.3 The remedy measures listed in above Para.4.2.2 are all the options available for passengers. Unless otherwise provided by the mandatory and prohibitory provisions contained in the Convention, laws and administrative regulations, Xiamen Airlines has no other liability.

5 Tickets

5.1 General rules

5.1.1 The ticket of Xiamen Airlines evidences the carriage between Xiamen Airlines and the passenger named on the ticket. Xiamen Airlines will provide carriage only to the passenger holding a ticket issued by Xiamen Airlines or the carrier signing agreement with Xiamen Airlines.

5.1.2 When a passenger purchases more than one ticket, he enters into multiple independent contracts of carriage with Xiamen Airlines. When a passenger purchases an interline ticket, he enters into a single contract of carriage with Xiamen Airlines. According to relevant laws and regulations, as well as the provisions of these Conditions, the purchase of more than one ticket or of one interline ticket will have different legal effects. Unless otherwise specified, the rights and obligations between Xiamen Airlines and passengers agreed in these Conditions are only applicable to a single contract of carriage and are not involved in other contracts of carriage. Passengers shall fully understand this and choose to purchase according to their actual situation.

5.1.3 Each passenger shall individually hold a ticket. The ticket is registered, and may be used only by the passenger whose name is listed on the ticket and this must match the passenger's ID information. Otherwise, Xiamen Airlines reserves the right to refuse carriage.

5.1.4 A ticket is not transferable. A transferred ticket is invalid and non-refundable. If a ticket is presented by someone other than the person entitled to be carried thereunder or to a refund in connection therewith, Xiamen Airlines shall not be liable to the person so entitled if in good faith it provides carriage or makes a refund to the person presenting the ticket.

5.1.5 The passenger's name on the ticket shall be consistent with the identity information provided by the passenger, otherwise Xiamen Airlines reserves the right to refuse carriage.

5. 1. 6 If the coupon of the segment which the passenger requests to check in is used or invalid, Xiamen Airlines has the right to refuse carriage.

5. 1. 7 The passenger shall complete all flight segments listed on the ticket within the period of validity. If a discounted fare ticket imposes restrictions on the date of travel, the passenger shall complete all flight segments listed on the ticket within the given period of the applicable tariffs.

5. 1. 8 Paper tickets shall not be altered. A ticket or receipt is invalid and non-refundable if it has been altered.

5. 1. 9 The name of Xiamen Airlines is abbreviated as "MF", the airline designator code of Xiamen Airlines, in the ticket.

5. 2 Period of validity

5. 2. 1 Unless otherwise provided in the ticket, these Conditions or applicable tariffs (The tariffs may limit the period of validity of a ticket, in which case the limitation will be shown on the ticket.), a ticket is valid for carriage for one year from the date of commencement of travel. If the first flight coupon is unused or open dated, the ticket is valid for carriage for one year from the date of issue thereof.

5. 2. 2 If the first flight coupon of a ticket has been used, the whole ticket or any conjunction ticket is valid for carriage for one year from the date of commencement of travel. Regardless of revised routing or ticket reissue afterwards, the original period of validity will not change. If a ticket is totally unused, the period of validity of the ticket after reissue is one year from the date of commencement of travel. For the reissued ticket of which the first flight coupon is unused or open dated, the period of validity is one year from the date of reissue.

5. 2. 3 Unless otherwise agreed, the calculation of the validity of a ticket begins from midnight on the date of commencement of travel or the date of issue, until midnight on the date of expiration.

5. 2. 4 Period of validity of travel: Some tickets at discounted fares impose strict restrictions on the longest and/or shortest time of a passenger's stay in a certain place. The passenger must complete his travel within the stipulated time limit. When a ticket contains a discounted fare with a shorter validity period than the normal fare, if the rules of such discounted fare do not stipulate that its validity period is applicable to the whole routing, such shorter validity period is only applicable to the flight segment using the discounted fare.

5. 3 Extension of validity

5. 3. 1 If a passenger is prevented from traveling within the period of validity of the ticket because Xiamen Airlines:

- a) cancels the flight on which the passenger holds a reservation; or
- b) omits a scheduled stop, being the passenger's place of departure, place of destination or a stopover; or
- c) fails to operate a flight reasonably according to the original schedule; or
- d) causes the passenger to miss a connection with the flight on which he holds a reservation; or

- e) is unable to provide previously confirmed space; or
- f) substitutes a different class of service.

the validity of such passenger's ticket will be extended until the first flight of Xiamen Airlines on which space is available in the class of service for which the fare has been paid.

5. 3. 2 When a passenger holding a normal fare ticket or a discounted fare ticket with a same period of validity as the normal fare ticket, is prevented from traveling within the period of validity of the ticket because at the time such passenger requests reservations Xiamen Airlines is unable to provide space on the flight in the class of service, the validity of such passenger's ticket will be extended until the first flight of Xiamen Airlines on which space is available in the class of service for which the fare has been paid.

5. 4 Itinerary/receipt of e-ticket for air transport (civil aviation special invoice)

5. 4. 1 Itinerary/receipt of e-ticket for air transport is one of the civil aviation special electronic ticket invoices. Each e-ticket provides one invoice only.

5. 4. 2 Civil aviation special invoice shall be printed within 26 days after the ticket is completely used at the latest. Due to system restrictions, it cannot be printed after the specified date. Xiamen Airlines can provide ordinary VAT invoices instead.

5. 4. 3 In case of a refund, the printed invoice shall be provided. The passenger shall keep it properly.

5. 4. 4 If an invoice is lost due to the reasons relevant to the passenger, it will not be printed again according to *(Provisional) Regulations on Itinerary/Receipt of E-Ticket for Air Transport*.

5. 5 Sequence and use of tickets

5. 5. 1 The ticket purchased by a passenger is only applicable for the transportation from the place of departure via any stopping places to the place of destination as listed on the ticket.

5. 5. 2 Flight coupons of the ticket must be used in the sequence listed on the ticket. Use in the reversed sequence or skipping over flight segments is prohibited. The first flight coupon must be used first. Otherwise Xiamen Airlines has the right to refuse carriage. If tariffs have special provisions on the sequence of use of flight coupons (for example, it is required that the ticket must be used in sequence), they shall be observed. The first flight coupon means the first flight segment in the same contract of carriage sold as one ticket or multiple conjunction tickets. Unless otherwise stipulated by tariffs, the unused flight coupons shall be refunded within thirteen months from the date of commencement of travel (from the date of ticket issue if the first flight coupon is unused). When handling the refund, the difference between the fare paid and the fare for the transportation used shall be refunded and the corresponding refund fees (including cancellation fees and no-show charges) shall be charged, according to the refund rules of the original ticket. The taxes and charges of the unused flight coupons shall be refunded as well.

5. 5. 3 If the passenger wishes to change any aspect of transportation, he shall contact Xiamen Airlines in advance and observe relevant tariff provisions and limitations of ticket conditions. The fare for the passenger's new transportation will be recalculated, and the passenger will be given the option of

accepting the new fare or maintaining his original transportation as ticketed. If the passenger is required to change any aspect of transportation due to force majeure, he shall contact Xiamen Airlines as soon as practicable, and Xiamen Airlines will make reasonable efforts to transport the passenger to the next stopover or final destination, without recalculation of the fare.

5.5.4 If the passenger changes his transportation without agreement from Xiamen Airlines, Xiamen Airlines will determine the fare based on the passenger's actual travel. The passenger will have to pay any difference between the fare paid and the new fare applicable to the changed transportation.

5.5.5 Some changes to transportation of the ticket will result in an increase of fare price, such as changing the place of departure or reversing the direction of travel. Some fares are only applicable to the flight with a specific date as listed on the ticket and cannot be changed, or can only be changed after a passenger has paid for relevant charges.

5.5.6 A scheduled ticket is only applicable to the date and flight specified on the ticket.

5.5.7 An open ticket or a ticket containing open flight segments means that the passenger may, at the time of ticket purchase, allow the reservation status of the whole ticket or a certain flight segment to be open according to his needs and tariff rules. One or more of the carrier, flight number, date and reservation status of the ticket can be open at the time of purchase according to the route tariff rules, but must be confirmed before the actual carriage.

5.5.8 Each flight coupon contained in the passenger's ticket will be accepted for carriage by the carrier in the class of service on the date and flight for which space has been reserved.

5.5.9 If the passenger holds an open ticket, space will be reserved on application subject to Xiamen Airlines applicable fare, tariff rules and the availability of space on the flight applied for. Within the scope permitted by the ticket conditions and the contract of carriage, the first confirmation of open items on such ticket free of charge before the actual carriage can be exempted from change fees, and only the fare difference between the new ticket when space is reserved and the original open ticket will be charged.

5.5.10 If the change after confirmation or the confirmation of open items results in the change of reserved items in the original ticket, the fare for the whole routing shall be recalculated according to the ticket conditions, and the resulting fare difference and corresponding change fees shall be charged.

5.5.11 In the event the passenger does not show up for any flight on which he holds a reservation without advising Xiamen Airlines in advance, Xiamen Airlines may cancel his return or onward reservations as specified on the ticket.

6 Fares, taxes and charges

6.1 Fares

6.1.1 Fares apply only for air carriage from the airport at the point of origin to the airport at the point of destination. Fares do not include ground transport service between airports in the same city and

between airports and city centers, and various additional taxes and charges.

6. 1. 2 Applicable fares are those applicable and in effect at the time the passenger purchases the ticket for travel on the specific date, route and other information shown on the ticket. If the fare is adjusted after the ticket is sold, the fare amount will not change. Should the passenger change transportation, this may have an impact on the fare to be paid.

6. 1. 3 Fares apply only to routings published in connection therewith. If there is more than one routing at the same fare, the passenger may specify the routing prior to issue of the ticket. If no routing is specified, Xiamen Airlines or its authorized agents may determine the routing.

6. 1. 4 The passenger purchasing a normal/discounted fare ticket shall comply with the ticket conditions of such fare. Special refund and endorsement restrictions may apply to some tickets which are sold at discounted fares. For example, some tickets may be partially or completely non-refundable, or non-endorsable. Passengers should choose the fare best suited to their needs.

6. 1. 5 When a child or an infant is accompanied by an adult passenger, a ticket in the same class of service as the ticket of the accompanying adult must be purchased for the child or infant.

6. 2 Taxes and charges (regardless of type)

6. 2. 1 Any tax or charge imposed by government or other authority, or by the approved operator of an airport, in respect of the use by a passenger of any service or facilities will be in addition to the applicable fares and shall be collected by the airlines and be payable by the passenger.

6. 2. 2 Xiamen Airlines will inform the passenger of the taxes and charges not included in the fare at the time of ticket purchase. The taxes and charges will be listed separately on the ticket. Taxes or charges imposed on air travel often change and may be collected after the ticket is sold. The passenger is obliged to pay for any increase in the applicable taxes listed on the ticket or any newly added taxes after the ticket is sold. If the taxes paid by the passenger when purchasing the ticket are cancelled or reduced and are no longer applicable to the passenger, the passenger has the right to apply for a refund, and Xiamen Airlines will make a refund in accordance with the rules of relevant government departments.

6. 2. 3 Fuel surcharge, aviation insurance surcharge and sales-related charges shall be issued and collected by the carrier according to relevant regulations or policies of different states (or regions) and authorities. Unless otherwise agreed, the infant who is travelling at the infant fare and does not occupy a seat is exempt from fuel surcharge, while the child is charged fuel surcharge as the adult.

6. 3 Payment of fares

6. 3. 1 The passenger shall pay fares and charges in the currency using the payment method acceptable to Xiamen Airlines. All fares must be pre-paid prior to travel, unless other arrangements have been agreed upon between Xiamen Airlines and the passenger.

6. 3. 2 When the fare amount that has been collected is inconsistent with the applicable fares or there has been a mathematical error, according to Xiamen Airlines regulations, the difference shall be paid by the passenger, or, as the case may be, refunded by Xiamen Airlines.

6.3.3 In the event that Xiamen Airlines does not have reliable confirmation that payment has been validly made or if Xiamen Airlines advises the passenger for the need for additional information, Xiamen Airlines may request additional information from the passenger and/or, when a ticket was paid by a person who is not the passenger, Xiamen Airlines may request the presence of the payer at the airport any time after ticket issuance including at check-in, prior to travel or after travel has commenced. Xiamen Airlines also reserves the right to require another form of payment should a passenger not be able to reliably confirm that payment was validly made and/or provide the additional information requested. If the passenger fails to meet the above requirements of Xiamen Airlines, Xiamen Airlines has the right to refuse carriage.

7 Reservations and ticket purchase

7.1 General rules

7.1.1 Passengers may consult, reserve and purchase tickets from the direct sales agencies (including but not limited to ticket offices of Xiamen Airlines branches and sales offices, official website, mobile application, WeChat official account and customer service hotline 95557 of Xiamen Airlines, etc.) or authorized sales agents of Xiamen Airlines.

7.1.2 Reservations will not be valid until the fare has been paid in accordance with the procedures and time limits set forth by Xiamen Airlines and a ticket has been accepted and issued with the reservations listed on the corresponding flight coupon by Xiamen Airlines or Xiamen Airlines authorized sales agents. Reservations are not confirmed until recorded as accepted by Xiamen Airlines or Xiamen Airlines authorized sales agents.

7.1.6 If a passenger does not use a reservation in accordance with Xiamen Airlines regulations and fails to advise Xiamen Airlines in advance, Xiamen Airlines shall be entitled to cancel all his reservations.

7.1.7 Xiamen Airlines reserves the right to refuse to sell tickets and carry any passenger who is unfit for travel by air. Passengers under limited carriage can only reserve seats and purchase tickets with the consent of Xiamen Airlines and other relevant carriers if they meet certain requirements.

7.1.8 Xiamen Airlines has the right to restrict the reservations and ticket purchase of passengers who occupy seats maliciously or purchase tickets falsely.

7.2 Ticketing time limits

If a passenger has not paid for the ticket prior to the specified ticketing time limit, Xiamen Airlines may

cancel the reservation.

7.3 Personal data

7.3.1 The passenger gives personal data to Xiamen Airlines for the purposes of making a reservation for carriage and for obtaining ancillary services. For these purposes, the passenger authorizes Xiamen Airlines to retain such data and to transmit it to its own offices, other carriers, the providers of such services, or the institutions approved by laws and regulations.

7.3.2 When purchasing tickets, the passenger must provide his valid identity documents, ensure that they are the same as those used for check-in and boarding, and provide accurate and valid contact details.

7.3.3 The passenger shall provide a valid certificate or proof containing the birth date of a child or an infant when purchasing a child fare ticket or an infant fare ticket.

7.3.4 The passenger shall be responsible for the authenticity and validity of personal data, while Xiamen Airlines has no obligation for the review.

7.3.5 If the passenger refuses to provide necessary personal data, Xiamen Airlines has the right not to accept reservations and ticket purchase.

7.4 Information notifications

7.4.1 When Xiamen Airlines or Xiamen Airlines sales agents sell tickets through the Internet, they will notify passengers of the main service information of reservations, air safety information and other necessary contents. The change/cancellation of reservations or the refund requested prior to the release of flight irregularity information shall be handled in accordance with the provisions of voluntary changes or voluntary refunds.

10.1.6 Unless otherwise specified, cancellation fees are calculated based on the time of cancellation of the reserved seat.

10.2.4 If the person requesting a refund is not the passenger named on the ticket or the person who has paid for the ticket, the person shall present a valid ID document for the passenger or the person who has paid for the ticket and a refund authorization letter, along with his own valid ID document.

If a passenger pays for the ticket by a credit or debit card, the ticket can only be refunded to the original card account. Xiamen Airlines will calculate the refund on the basis of the ticket fare amount and currency originally paid by the passenger in accordance with this rule. Due to currency exchange differences, the ticket fare amount refunded to the passenger's card may be different from the amount originally recorded in the bank statement by the credit or debit card company. If there is no published tariff for the transportation from the landing station to the arrival station, refund an amount equal to the fare for public transport (bus, second-class seat on bullet train/high-speed railway/ship) between the landing station and the arrival station. When there are several eligible fares on the same means of transport, choose the median price.

10.7 Voluntary refunds

For each sick passenger, at most two accompanying persons can get refunds free of cancellation fees;

c) In the event of death of a passenger and his immediate family member before the commencement of travel, provided a death certificate or a kinship certificate required by the airlines is presented, no cancellation fees will be charged for the passenger and his immediate family member. For international carriage other than those as defined in the Montreal Convention, Xiamen Airlines shall assume the liability for any damage to passengers and baggage caused by the carriage in accordance with relevant rules of the Warsaw Convention.

16.2 In carriage which is not international carriage to which the Convention applies:

a) Xiamen Airlines shall be liable for damage to a passenger or his checked baggage only if such damage was caused by acts or omissions of Xiamen Airlines, done with intent to cause damage or recklessly and with knowledge that damage would probably result. If the damage was caused or contributed to by the negligence of the passenger, Xiamen Airlines shall be wholly or partly exonerated from its liability for damage in accordance with applicable laws and regulations;

a) Xiamen Airlines is liable only for damage occurring on its own line. Xiamen Airlines issuing a ticket or checking baggage over the lines of another carrier (including code-share flights of which the operating carrier is not Xiamen Airlines) does so only as agent for such other carrier. Nevertheless, with respect to checked baggage the passenger shall also have a right of action against the first or last carrier. In the event of change, delay, cancellation, overbooking of the flight, damage or loss of the baggage,

personal injury and other situations on the flight that is not conducted by Xiamen Airlines (including code-share flights of which the operating carrier is not Xiamen Airlines), the operating carrier shall be liable for the compensation and Xiamen Airlines may assist in contacting the operating carrier;

c) If the weight of the baggage is not recorded on the baggage check, it is presumed that the total weight of the checked baggage does not exceed the applicable free baggage allowance for the class of service concerned;

d) The liability of Xiamen Airlines shall not exceed the amount of proven damages. Xiamen Airlines shall furthermore not be liable for indirect or consequential damages;

e) Xiamen Airlines is not liable for any destruction, loss or damage to baggage caused solely by inherent defect, quality or vice of the baggage;

g) If a passenger is carried whose age or mental or physical condition is such as to involve any hazard or risk to himself, Xiamen Airlines shall not be liable for any illness, injury, death or disability, attributable to such condition or for the aggravation of such condition;

h) Any exclusion or limitation of liability of Xiamen Airlines shall apply to and be for the benefit of agents, employees and representatives of Xiamen Airlines and any person whose aircraft is used by Xiamen Airlines and such person's agents, employees and representatives. The aggregate amount recoverable from Xiamen Airlines and from such agents, employees, representatives and persons shall not exceed the amount of Xiamen Airlines' limit of liability;

i) Xiamen Airlines is not liable for injury to a passenger or for damage to a passenger's baggage caused by property contained in such passenger's baggage. Any passenger whose property causes injury to another person or damage to another person's property or to the property of Xiamen Airlines shall indemnify Xiamen Airlines for all losses and expenses incurred by Xiamen Airlines as a result thereof;

j) Unless so expressly provided nothing herein contained shall waive any exclusion or limitation of liability of Xiamen Airlines under the Convention or applicable laws.

16.4 Acceptance of checked baggage by the bearer of the baggage check without complaint at the time of delivery is prima facie evidence that the checked baggage has been delivered in good condition and in accordance with the contract of carriage, unless the passenger proves otherwise.

16.5 In the case of damage to checked baggage, the person entitled to delivery shall make a complaint

in writing to Xiamen Airlines or its authorized ground handling agents forthwith after the discovery of the damage. In the case of damaged or stained checked baggage, the person entitled to delivery shall make a declaration to the carrier (or its agents) and fill out Baggage Transport Report before leaving the baggage claim area, and make a claim in writing within seven days from the date of receipt at the latest. In the case of delay of checked baggage, the person entitled to delivery shall make a claim in writing at the latest within twenty-one days from the date on which the baggage has been placed at his disposal.

16.6 If Xiamen Airlines admits the loss of the checked baggage, or if the checked baggage has not arrived at the expiration of twenty-one days after the date on which it ought to have arrived, the passenger is entitled to enforce against Xiamen Airlines the rights which flow from the contract of carriage.

16.7 Any right to damages shall be extinguished if an action is not brought within two years, reckoned from the date of arrival at the destination, or from the date on which the aircraft ought to have arrived, or from the date on which the carriage stopped.

17 Effectiveness and modification

17.1 These Conditions shall become effective as of the date on February 8, 2023, and supersede the previous *Xiamen Airlines General Conditions of Carriage for International Passengers and Baggage*.

17.2 Xiamen Airlines has the right to modify its Conditions of Carriage, regulations, fares, charges and any other provisions without notice. However, no such modification shall apply to the passengers who have purchased tickets prior to the modification.

17.3 No employee, authorized sales agent, authorized ground handling agent of Xiamen Airlines or such agent's employee has authority to violate or modify the Conditions of Carriage, regulations, fares, charges and any other provisions applicable to Xiamen Airlines.
